Project Title

Beheshte Vahsh | Qazvin
Field-Based Animal Rescue & *Wildlife Protection Base*
(Operational Arm of *Samaneh Heyvanat*)

Executive Summary

Beheshte Vahsh | Qazvin is a non-profit, field-based initiative dedicated to the rescue, rehabilitation, and protection of native, semi-wild, and wild animals inhabiting the mountainous ecosystems surrounding the city of Qazvin. Designed as the operational arm of *Samaneh Heyvanat*, this project focuses primarily on free-ranging native dogs, wild birds, and vulnerable wildlife species affected by habitat loss, human–wildlife conflict, and climate stress.

This proposal presents a six-month operational plan accompanied by a transparent budget framework to attract institutional donors, corporate social responsibility (CSR) partners, and individual supporters.

Objectives

Strategic Goals

- Reduce preventable wildlife mortality in the mountainous regions of Qazvin
- Establish a rapid-response field rescue base
- Strengthen community and expert participation in wildlife protection

Operational Goals

- Rescue and treat at least 200 animals within six months
- Implement targeted seasonal feeding for native free-ranging dogs
- Rehabilitate and safely release injured wild birds
- Collect ecological field data to monitor human–wildlife conflict
